

Priyalatha,s Story

Priyalatha 's story is a remarkable testament to resilience, determination, and the transformative power of seizing opportunities in the sun-scorched lands of Bellankadawala, Medawachchiya, Sri Lanka. From her humble beginnings as a housewife to her emergence as a successful farmer and entrepreneur in maize cultivation, Priyalatha's journey resonates with the spirit of perseverance and community support.

Driven by a desire to contribute to her community's agricultural initiatives, Priyalatha embraced the opportunity presented by the JSB project, supported by UNDP and Janathakshan GTE Ltd. With determination and the support of the project, she embarked on a journey into agriculture, specifically maize cultivation for poultry feed, despite the challenges posed by the region's arid climate.

Undeterred by the harsh conditions, Priyalatha meticulously tended to her one-acre plot of land, utilizing innovative techniques such as the sprinkle water system provided by the project. Her hard work and dedication paid off as she defied the odds and harvested an impressive yield of maize seeds.

Priyalatha's success extended beyond the fields as she struck a profitable deal at the nearby poultry feed production center in Kanadarawa, earning a significant net profit. Buoyed by this success, she envisions expanding her maize cultivation and reinvesting her earnings into further agricultural endeavors.

Embracing the concept of intercropping, Priyalatha aims to maximize the productivity of her land while ensuring sustainability and resilience in the face of adversity. Her ambitions are not solely driven by financial gain but also by a deeper sense of empowerment, independence, and the realization of her potential as a farmer and a woman.

Priyalatha's story serves as an inspiration to her community, highlighting the transformative power of perseverance, hard work, and community support. As she looks towards the horizon with hope and determination, Priyalatha remains committed to her journey towards prosperity, fueled by her passion for agriculture and her unwavering spirit of resilience. Her trailblazing efforts leave a legacy of inspiration and success for others to follow.
